Vinay Bajaj (Director)

Eazy ERP Software is very reliable and an excellent fit because Eazy ERP handles our business needs very well. Based on just our Inventory reduction and subsequent reduction in carrying cost, we have achieved ROI in just a few months. We are using Purchase, Store, Sales, Quality, Production, Excise Records and Tally Integration modules in Eazy ERP. EBS provides good software support services.

INDIA'S 1st TALLY/BUSY INTEGRATED ERP

SUCCESS STORY

Food & Beverages:

Auto Parts & Component:

Japanese:

Electrical & Electronic Equipments:

Paint and Chemicals:

Apparels

International:

Others:

Vineet Agarwal, G.M. (Finance & Accounts)

We are using Eazy ERP software since 2011 in Paint Division having manufacturing units in Rajasthan, 32 Depots of Pan India and Corporate Office at Gurgaon . Eazy ERP helped us immensely in streamlining material requirement planning, timely procurement & batch production which in turn helped us with better operational transparency. We have managed to decrease inventory , while still growing the business. Scheme management is a good software module which calculates multiple periodical sales schemes in few minutes and dealers are happy because they got schemes' benefits as per company's commitment. Management takes fast decision as per market demand because Eazy ERP provided Sales Analytical data. Sales team can compare achieved sales target with actual sales achieved .
